Prices—quoted per 100: 10% off on 1,000 lots, 25 at 100 rate, 250 at 1,000 rate—20% added for less than 25 of a variety. Not less than 10 of a variety sold.

Jap. Maple Cutting just before potting. Root system has been further increased by bottom heat.

JAPANESE MAPLE

For a continued highlight in the landscape, the true blood leaved maple stands second to none.

The two most important of the available varieties are atropurpureum and nigrum. The nigrum is somewhat darker in color especially during the latter part of the season.

The cut leaved weeping forms are very graceful trees. One is a cheerful green whereas the variety (dissectum atropurpureum) has the same red colored foliage found in the upright form of red Japanese Maple.

We have discontinued growing many inferior and unimportant varieties. We offer the following.

| ACER—Japanese Maple | | 100 rate each |
|----------------------------------|----------|---------------|
| pal. atropurpureum | 2 1/2" P | \$0.50 |

AZALEA

The Azaleas with their colorful display are still the foremost plants to build up retail sales in spring. Demand for good hardy Azaleas has increased. The hardy varieties will stand our climate without the pampering and extra work entailed to over winter many varieties on the market at present. May we call your attention to our Azaleas kaempferi seedlings (Page 14). The seed collected from selected plants having brilliant large flowers which do not burn when exposed to the sun. See our offer under "SEED-LINGS" for Azalea transplants in flats on Page 14.

LEFT—*Cornus florida rubra*, pink dogwood. Own root cuttings in fall, before potting.

RIGHT—Own root *Magnolia lennei*, in fall before potting.

NOTE—Our treatment after potting, creates a greater root mass by time of shipping.

DOGWOOD

One of our best flowering trees for landscape work, find themselves at home over a large area. The large flowering and yellow fruited varieties are showier than the ordinary white seedling forms. The weeping and variegated dogwoods are generally used for exotic and contrasting effects in the garden. The variety *Flora Plena* is a pure white double form considered a very desirable novelty.

Cornus kousa chinensis, an asiatic variety with large pure white flowers blooming when its foliage sets off these beautiful flowers, is one of our most attractive flowering trees. In fall the tree is adorned with pendulous red fruit resembling round strawberries.

| | | | 100 rate each |
|---------------------------|--------|----------|------------------|
| CORNUS (Dogwood) | | | |
| florida fructi luteo..... | 6 - 8" | 2 1/2" P | \$0.45 |

HOLLY

Holly suggests gay Christmas decorations—for this **Ilex Opaca** is most commonly used. In many parts of the country vast plantations of Holly have earned good dividends in the winter season.

Our **Ilex Brilliantissima** has the dark color of the English Holly; berries profusely and is hardy. Is also a fine plant for landscape planting.

Ilex Glabra—Inkberry with smooth evergreen foliage and blue black fruit makes a good broad leaved evergreen for shaded areas.

WHY PRICES DIFFER

See Taxus picture

A—OUR "Top-size" cuttings make salable plants in shorter time.

B—OUR "Regular-size" cuttings are the best value for the lowest price.

C—Inferior cuttings (not offered by us). Cheap but disappointing.

BUY OUR CUTTINGS — Grown for best results, healthy foliage, vigorous roots. SAVE A YEAR.

VIBURNUM

Viburnum carlesii cutting just before potting.

The Viburnums are very valuable flowering shrubs to the nurseryman. Practically free from ravages of insects and diseases, laden with flowers or berries they should be publicised more. There are many outstanding varieties like Carlesi, Burkwoodi and Juddi with their fragrant delicate pink flowers; Theiferum and Dilatatum, resplendent with countless brilliant red berries in fall; Rhytidophyllum having large leathery evergreen leaves with white flowers in spring and many others of equal interest.

The varieties mentioned below should not be confused with a few dull unattractive kinds offered as collected plants. Here again we have triumphed over mother nature by discovering a way in creating active lateral roots. We offer own root products:

VIBURNUM

| VIBURNUM | | 100 rate each | |
|----------------------|---------|------------------|--------|
| burkwoodi..... | 4 - 6" | 2 1/2" P | \$0.20 |

WHOLESALE ONLY

To introduce our products to the trade we have assembled collections covering three important groups of lining out material.

Please note that all these plants are on their **OWN ROOTS**, no graft weaknesses to worry about.

COLLECTION "A"—Broadleaved Evergreens

- 2 Rhododendron, O. R.—6"
 - 2 Andromeda japonica—4 - 6"
 - 2 Laurocerasus shipkaensis—4 - 6"
 - 2 Azalea hinodigiri—TF
 - 2 Azalea mucronulatum—TF
 - 2 Azalea macrantha—TF
- Shipped post free—\$4.50

COLLECTION "B"—Ilex - Holly

- 2 Ilex crenata—4 - 6"—TB
 - 2 Ilex bullata—3 - 5"—TF
 - 2 Ilex altaclarens—3 - 5"—2½" P
 - 2 Ilex opaca brilliantissima—3 - 5" P
 - 2 Ilex aquifolia scottica—3 - 5"—2½" P
 - 2 Ilex glabra—3 - 5"—2½" P
- Shipped post free—\$4.00

COLLECTION "C"—Deciduous

- 2 Pink Dogwood—8 - 10"—2½" P
 - 2 Gordonia albatamaha—4 - 6"—2½" P
 - 2 Magnolia soulangeana—6 - 8"—2½" P
 - 2 Magnolia waterlily—6 - 8"—2½" P
 - 2 Viburnum burkwoodi—4 - 6"—2½" P
 - 2 Viburnum plicatum—4 - 6"—2½" P
- Shipped post free—\$5.00

EXPERIMENTAL GREENHOUSE where new ideas in propagation are born.

TRANSPLANTED SEEDLINGS

Healthy Vigorous Plants, 2 - 4" High

AZALEA

| | 100 rate each |
|---------------------------------------|------------------|
| Ghent hybrids | \$0.16 |
| *Kaempferi (dark strains)..... | .10 |
| *Kaempferi (salmon shades) | .10 |
| Mollis (large flowering) | .14 |

RHODODENDRON SPECIES

| | |
|---------------------------|-----|
| Ponticum (domestic) | .08 |
| *Carolina | .10 |
| *Racemosum | .20 |

(*) Sold out, booking for next season.

Flatted seedlings as offered
Above, 10 mos. from seed.

- A — Pieris (Andromeda) japonica
- B — Azalea kaempferi (selected strain)
- C — Rhododendron hybrid seedling

Note: Strong root system and healthy foliage.

GRAFTED STOCK

| | | | |
|---------------------------------|--------|-------|--------|
| Biota Aurea Nana..... | 6 - 8" | 2½" P | \$0.50 |
| Junipers chin. columnarius..... | 6 - 8" | 2½" P | .50 |
| —Virginiana glauca..... | 6 - 8" | 2½" P | .50 |

CULTURAL AID FOR LINING OUT STOCK

ALL BARE ROOT and the following potted material should be planted in beds provided with lath or other suitable shading. Andromeda, Azalea, Gordonia, Leucothoe, Ilex, Magnolia, Berberis, Cotoneaster, etc.

FOR ACID LOVING PLANTS, soil in beds should be enriched with acid leaf mold and decomposed cow manure. Other stock will be greatly aided by aged manure. Peat Moss and screened sand, incorporated with heavy soil, will encourage good root action.

ALL POTTED PLANTS such as Chamaecyparis, Juniperus, Taxus, Thuja, etc. may be lined out in Spring and Early Summer in previously prepared fields.

WATERING is important unless planting coincides with a natural rainfall. A good watering at time of planting is advisable, if at all possible. This is to be followed by one or two waterings. During June and July, the beds should be watered but the watering should be tapered off during the latter part of August to prevent late soft growth.

CULTIVATING during summer months is advisable and will be of great help where water is not available.

FEEDING with well rotted manure, as previously stated, should be done at planting time. No stimulant should be applied the first year. If used later, apply early enough to allow growth to harden before frost.

WINTER PROTECTION. Most of the plants will not need shade during late summer, but replacing shading on the beds for winter months is advisable if at all possible.

MULCHING is advisable to prevent heaving and winter injury. Oats broadcasted in September, will form a good mulch in regions where oats winter kills. Oats also check annual grass and chickweed.

TERMS AND CONDITIONS

This list cancels all previous quotations. Prices quoted are subject to change without notice and orders are accepted subject to prior sale.

PRICES—quoted per 100: 10% off on 1,000 lots, 25 at 100 rate, 250 at 1,000 rate—20% added for less than 25 of a variety. Not less than 10 of a variety sold.

CERTIFICATE—By U. S. D. A. furnished.

PACKING—Free of charge for cash with orders over \$25.00 only.

SHIPPING—From Westbury to destination at cost and risk of purchaser.

PAYMENT—All or 25% cash with order; balance C. O. D. unless otherwise arranged.

GUARANTEE—We express or imply no warranty as to the life or condition of the stock after it leaves our control.

CLAIMS—All claims must be made in writing within ten (10) days of invoice date. No merchandise may be returned for credit without our written permission. No adjustments made when account is past due. Your order shall constitute acceptance of these terms.

NOTE—We reserve the right to cancel all or part of any order in case of strike, delay in case of crop failure, or when not receiving desired variety, grade or quality or quantity from our growers, in which case order will be held over, or refund will be made. We assume no responsibility for hardiness of plants in a given locality.
